

**The following provides examples of the types of legislation found under each policy category:**

Economic Development:

- Education & Workforce Development
- Business Attraction Strategies and Funding
- Research and Development Funding
- Mandates related to Economic Impacts Analysis

Electricity Generation:

- Renewable or Alternative Portfolio Standards
- Distributed Generation
- Renewable Energy Sources
- Natural Gas Fired Generation
- Other Generation Resources
- Cost Caps
- Lead-by-Example Programs

Emissions:

- Carbon Taxes
- Cap and Trade Programs
- Greenhouse Gas Registries
- Measurement Programs
- Emission Reduction Targets
- Climate Action Plans
- Participation in an Initiative (RGGI, Kyoto, etc.)
- Carbon Capture and Storage

Energy Efficiency:

- Energy Efficiency Resource Standards or Targets
- Appliance and Equipment Standards
- Building Energy Codes and Rating Systems
- Demand Side Management
- Rate-realignment and Decoupling
- Lead-by-Example Programs

Financing and Financial Incentives:

- System Benefit Charges
- Tax Incentives and Rebates
- Performance Based Incentives
- Loan and Grant Programs
- Property Assessed Clean Energy
- Other Financing Mechanisms

Infrastructure:

- Facility and Transmission Planning and Siting
- Resource Planning
- Balancing Authorities (ISOs, RTOs, etc.)
- Smart Meter / Grid Deployments

Natural Gas Development:

- Oil and Gas Development and Extraction
- Severance Taxes
- Mineral Rights

Other Energy was created as a space for bills related to the nation's energy economy, but that do not fit into any of the above categories.

Regulatory:

- Public Utility Business Models
- Rate Recovery and Rate Setting
- Regulatory Board Compositions
- Task Forces and Other Commissions

Transportation:

- Renewable Fuel Standards
- Alternative Fueled Vehicles
- Fueling and Other Infrastructure
- Lead-by-Example Programs
